

Accountancy & Finance

"TP trains its students in the practical aspects of accounting and finance and meets the needs and demands of the accounting and fast-growing finance industry. The graduates have achieved high standards. The proof of the pudding is in the eating and we have been very satisfied with those who have joined us."

Kon Yin Tong
Managing Partner
Foo Kon Tan LLP

With the Government's commitment to promote Singapore as a financial centre and wealth management hub, the demand for finance professionals will undoubtedly continue to increase. The emphasis on corporate governance and the vision to transform Singapore into a global accountancy hub also fuel the need for qualified accountants.

Our course offers a dual specialisation in both accounting and finance, giving you wide career and further study options after you graduate. The course curriculum is robust, practical and industry-relevant to instil confidence and equip you with technical and soft skills for the dynamic accountancy and financial services sectors. Besides the opportunities for you to develop problem-solving, communication and service skills, you will also experience hands-on learning through industry and real-life projects. This is in addition to the application of financial databases, office applications and accounting software widely used in the industry.

You get to choose your preferred Accounting or Banking and Investment specialisation to pursue interests beyond your diploma course.

A key focus in the first year is to provide a solid grounding in general business and management disciplines like economics, management, statistics and financial accounting. The next two years build on core industry knowledge and skills through subjects like Business Finance, International Finance, Investment, Management Accounting, Taxation, and Corporate Reporting & Audit.

In the final year, you will select electives from a range of Accounting, Banking and Investment subjects to fit your preferred career path. Your knowledge and skills will also be applied in the industry through a structured internship programme with one of our strategic industry partners, which include the Big Four or large local accounting firms, banks and financial institutions, and many reputable multinational companies.

Career Opportunities

Exciting career opportunities await you in the areas of accounting, audit, taxation, finance, banking, investment, insurance, stock-broking and wealth management. You could be employed in the Big 4 or local accounting firms, banks or other financial institutions, and accounts/ finance departments of companies in diversified industries.

Many of our graduates pursue further studies in accountancy and business programmes offered by local universities and enjoy credit transfers to many overseas universities in Australia, United Kingdom and New Zealand. They are also granted exemptions from selected modules of professional qualifications such as the ACCA, CIMA, ICAEW, ICSA examinations and industry-linked certifications such as CMFAS examinations. A new Earn-and-Learn Programme leading to the Advanced Diploma in Accountancy also provides a new pathway for our graduates to embark on the Singapore QP Programme to attain the Chartered Accountant of Singapore designation.

Graduation Requirements

Cumulative Grade Point Average : min 1.0

TP Fundamentals Subjects : 40 credit units

Diploma Subjects

Core Subjects : 72 credit units

Elective Subjects : min 12 credit units

Total Credit Units Completed : min 124 credit units
